100% Aromatic Cedar

Affordable Luxury. Natural Protection.

Your complete source for 100%
Aromatic Eastern Redcedar
www.cedarsafe.com

Since 1939, Giles and Kendall, the manufacturer of CedarSafe planks and panels, has concentrated on making the finest products from 100% Aromatic Eastern Redcedar. All of our products are manufactured at one of Giles and Kendall's two U.S. manufacturing facilities, either Huntsville, Alabama (where the company is headquartered) or Gainesville, Missouri.

At Giles and Kendall we employ sustainable processes that minimally impact the environment. Not only are our Aromatic Eastern Redcedar trees sourced domestically and harvested from the wild, but we strive to eliminate waste and fully utilize our sole resource. Therefore, we use the entire tree to make our products.

The primary use of Aromatic Eastern Redcedar is for lining closets and additional enclosed areas to protect clothes, linens, and other valuables from damage due to moths, cockroaches, silverfish, and mildew. Aromatic Eastern Redcedar is a chemical-free, non-toxic alternative to other harmful insect repellents that adds effortless elegance to any closet, pantry, or installed area.

Aromatic Cedar Flakeboard 4' x 8' x 1/4" Model #4010

- Made with 100% Aromatic Cedar Flakes
- Formaldehyde-free, soy-based adhesive
- Use in attics, basements, laundry rooms, or linen closets
- Safe and natural alternative to mothballs
- Provides a fresh and pleasant aroma
- Economical panels are half the cost per square foot of solid planking
- Create off-season storage by installing over drywall or directly to studs
- Quick and easy installation
- No finishing required
- Renew by lightly sanding or applying cedar oil
